KISHORI LAL LODH

SOFTWARE DEVELOPER

PROFILE

I am excited about the prospect of software developer for IT industries and I am eager to contribute my skills and expertise to Software Company. I am confident that my combination of academic achievements, technical proficiency, and passion for full stack web developer will make me a valuable asset to any team.

PROJECTS

Payroll system with income tax calculation

- The purpose of this software requirement for a payroll System with income Tax Calculation using Java and MySQL.
- The System will manage employee payroll and calculate income tax deductions.

Billing System

- We created a software in java , which does the billing work.
- Using java AWT and Swing we built the front end of the system.
- After bill calculation, it will be created in PDF format.

CERTIFICATIONS

- Web development by STP computer education
- Project development using IOT
- Treasure Hunt sport participation from SIRT Bhopal
